

13 December 2011

**Private & Commercial Finance Group plc ('PCFG' or 'the Group')**  
**Interim Results Statement**

Private & Commercial Finance Group plc, the AIM quoted finance house, announces its results for the six month period ended 30 September 2011.

**Overview**

- Profit before tax up 61 % to £241,901 (2010 - £150,302)
- Obtained new and increased funding facilities in the period of £15m
- Portfolio acquired in July performing well
- Return on average portfolio assets increased to 0.5 % (2010 – 0.3%)
- Total net assets increased by 12% to £8.2 m (2010 – £7.3m)
- New business advances totalled £19.7m for the period (2010 - £22.3m)
- Ratio of administrative expenses to gross profit reduced to 61% (2010 – 67%)
- Sustained improvement in the quality of the portfolio and continued reductions in the level of overdue accounts

Commenting on the interim results, Scott Maybury, PCFG's Chief Executive said:

“We have achieved credible results in the period despite an economic and banking environment that continues to be challenging. I am very pleased to report that in addition to the new funding facility of £7 million secured in June, we have recently arranged another new facility of £3 million and received small increases to two of our existing facilities. This increase in funding facilities, together with the acquisition of £6 million of receivables, has provided a boost to our income and provided some positive impetus after a sustained period of portfolio run-off. We look forward to building on these achievements.”

## **Chairman's Statement**

I am pleased to report our half-year results for the period ended 30 September 2011. During the period the Group's profits increased to £241,901 (2010 - £150,302) representing a 61% improvement on the same period last year.

Our portfolio continues to perform well, with the number of past due accounts falling steadily throughout the period.

We recognise the need for further improvement in profit before tax and now intend to make a fresh start. Our medium-term objective is to improve the return on average portfolio assets to 2% from its present level of 0.5% (2010 - 0.3%). We will do this by finding new routes to market, improving margins, driving down operating and bad debt costs and growing the portfolio.

## **Financial Review**

Turnover was down in the period and receivables declined by 3% (2010 - 5%), but profit before tax increased. This resulted from the continuing improvement in the quality of the portfolio, the acquisition of the North Herts Credit Company portfolio and further cost reductions. The full year results will attract a tax rate higher than the standard rate of Corporation Tax owing to the effect of the reduction in the main rate of Corporation Tax on our deferred tax asset and we have applied an estimated tax rate of 47% to these results.

## **Current Trading**

While the continued profitability of the Group is encouraging, increasing concerns over the Eurozone and the UK economy, together with the tight market for wholesale funding, require a continued strong focus on portfolio quality and collections. Arrears and impairments are within management expectations and we are confident that adequate staff resource has been allocated to this part of our business. Organic growth of the portfolio has been challenging as both businesses and consumers have reduced their willingness to take on new debt and are deferring investment decisions. New business originations fell by £2.6 million during the period since we will not sacrifice quality or forego margin for short-term gain. Our IT infrastructure and long-standing relationships with introducers stand us in good stead and, while there are signs, particularly in the business finance sector, of the return of competitive pricing pressures, there is still adequate opportunity for an independent finance company to differentiate itself through customer service, niche sectors, experienced underwriting and structured transactions.

The acquisition of the £6 million of motor finance receivables in July this year has integrated well and is delivering returns in line with our expectations. The Group continues to look for similar opportunities.

We re-launched our website in October to make it more customer-facing and to provide returning customers with easier access to *eQuote*, our internet-based proposal system. We also intend to commence new marketing initiatives to make greater use of our extensive database of 40,000 past and existing customers. Repeat business from our existing customer base provides quality customers with a known credit history and helps to cement brand awareness.

### **Funding and Equity**

In the period the Group has been successful in attracting £10 million of new medium-term funding facilities and increased its existing facilities by £5 million which will be used to grow the business.

In August, Bermuda Commercial Bank ('BCB') acquired an 8.8% stake in the Company, which it recently increased to 19.9%. BCB is the third largest bank in Bermuda with net assets of \$75million and a focus on innovation, quality service and conservative risk management. We welcome BCB as an investor and look forward to working with them.

### **Directorate Change and Staff**

During the period, the Board welcomed Nick Winks as a non-executive director and I assumed the role of non-executive Chairman. Together with Tony Nelson, who remains a non-executive director, the new composition of the Board provides a range of sector and wider business experience to the Group.

I would like to thank all our staff for their continued professionalism and commitment.

### **Outlook**

Despite the economic environment, which has never been more challenging, we are intent on growing both profit and the business.

David G Anthony  
Chairman  
13 December 2011

**Notes to the Interim Report:**

1. The interim results are unaudited and do not constitute statutory accounts as defined by section 434 of the Companies Act 2006. The comparative figures for the year ended 31 March 2011 are based on the statutory accounts of the Group for that period and have been reported on by the Group's auditor and delivered to the Registrar of Companies. The report of the auditors was unqualified and did not contain a statement under section 498 of the Companies Act 2006.
2. The interim results have been prepared on the basis of the accounting policies set out in the Annual Report & Financial Statements for the year ended 31 March 2011.
3. These interim consolidated financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union.
4. The Group's turnover represents gross rental and instalment credit income received, the hire, financing and sale of equipment, and the provision of related fee based services, stated net of Value Added Tax.
5. The Group operates in the principal areas of consumer finance for motor vehicles and business finance for vehicles, plant and equipment. All revenue is generated in the United Kingdom. Turnover and profit on ordinary activities before taxation are stated below:

	<i>Six months ended 30 September 2011 £000's</i>	<i>Six months ended 30 September 2010 £000's</i>	<i>Year ended 31 March 2011 £000's</i>
<b>Group turnover</b>			
Consumer finance	12,381	12,174	24,885
Business finance	14,513	17,269	33,055
<b>Turnover</b>	26,894	29,443	57,940
<b>Group profit before taxation</b>			
Consumer finance	488	366	949
Business finance	51	407	620
Central costs	(297)	(623)	(1,114)
<b>Profit on ordinary activities before taxation</b>	242	150	455

6. The income tax rate is 47%, representing the best estimate of the annual effective tax rate applied to operating profit before tax for the six month period. The effective tax rate for the period is higher than the standard rate for current Corporation Tax in the UK of 26% due to the effect of the reduction in the Corporation Tax rate on the deferred tax asset.
7. The calculation of basic earnings per ordinary share is based on a profit of £128,690 for the period and on 52,731,151 ordinary shares, being the weighted average number of ordinary shares in issue during the period.
8. The Group's loans and receivables portfolio of £102,597,066 is reported net of unearned future finance income of £20,118,371.
9. A copy of the Interim Report is being sent to all shareholders and convertible loan note holders. Further copies can be obtained from the Secretary of the Company at 39 Victoria Street, London SW1H 0EU or can be downloaded from our website, [www.pcfg.co.uk](http://www.pcfg.co.uk)
